

Dear Electric Utility, Surveillance, Helicopter and UVc Professional.

DayCor® Superb™, The Solarblind Corona Detection Camera from Ofil with Digital Video and Voice Recording plus Snap-Shot images!

It is the perfect tool to use for finding Invisible and Dangerous Electrical Corona Discharges. Inspect substations, overhead lines, distribution lines, Generator and Motor stators and windings and more.

Rent our DayCor® Superb™ for inspection of your separate independent incoming emergency lines to your Nuclear Power Plant, to make certain that they are clear

from contaminations on insulators causing corona flashover conditions! Also re-check after cleaning.

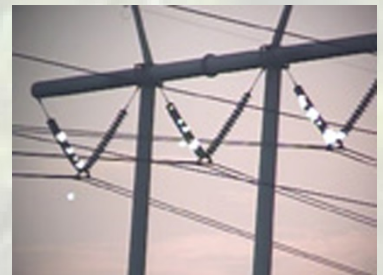

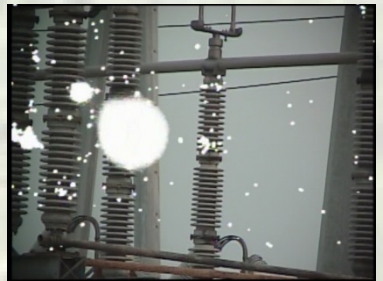

DayCor® UV Solar-Blind
 Corona Cameras since 2002!
 RENT OR PURCHASE from EKLUND INFRARED!

Above is our AD in T&D World Magazine!

Let The DayCor® Superb™ 100 % Solarblind Corona Detection Camera see electrical corona caused by Contaminations such as drifting soil, dirt, pollen, air pollution and salt spray. The insulating properties can be compromised which may precipitate a flashover on insulators. The Polymer insulators specifically are susceptible to this type of contamination

In the late winter, spring and early summer, there is a greater risk for electrical Corona and flashover on high voltage line insulators and transformer bushings.

Detect and Pinpoint Corona using the **world's most sensitive SolarBlind UVc electrical Corona Camera, the workhorse DayCor® Superb™**. Ofil DayCor® Superb™ is the **Hallmark of the Ofil DayCor® series of SolarBlind cameras!**

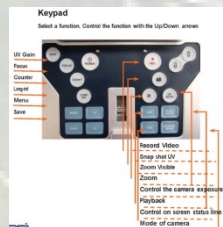

DayCor® Superb™

Rent the DayCor® Superb™ from us! Let us also quote you purchasing price for any of the DayCor line of cameras. We have carried and sold the DayCor® cameras since the commercial introduction in the US 2002. We know quality! The Superb® is still the most sensitive UVc Camera available.

The DayCor® Luminar™ HD is combining smaller size with the new HD LCD display and excellent UVc sensitivity! Ask us for a price quotation on the Superb™ or Luminar™.

Our rental package include the DayCor® Superb™, 3 batteries, Intelligent Battery Charger, AC-DC power supply, microphone, carrying case and accessory case & vest.

If you hear corona crackling noise in your substation or on overhead lines, use the Corona Camera to find and see the exact location of the corona discharge event!

Our DayCor® UVc Corona Cameras will see, find and locate invisible dangerous Electrical Corona, Arcing (including micro arcing) and Partial Discharge!

We rent on a weekly basis at very favorable prices.

DayCor® Luminar™
