

**EIR News March 2017.**

**Gyro Stabilized Gimbal Camera System SWE300Triple available for sale!**

**Here is an opportunity to buy a Thermal Infrared Gyro-Stabilized Gimbal Camera System at a preowned price!**

We have a used SweSystem SWE 300 Triple system available for sale on behalf of a customer. It is currently available for a fast sale.

It has a FLIR SC660 radiometric, long-wave, 640x480 picture resolution Infrared Camera, a DayCor® Bi-spectral Solar-Blind UV imager, and a Sony FCB-H11 HD TV Camera. The unit comes with everything in the pictures other than the small monitor on the hand controller.

This is a radiometrically calibrated unit for direct temperature readout of the temperature of the object as seen when flown. The Gimbal Camera System is controlled via the Hand Controller Unit (HCU). IFU and cables are included plus the FLIR Radiometric Package

This 300Triple manufacturing date is August 2010

**The asking price is \$200,000. (Please let us know your best offer)**

We offer the Ofil DayCor® Superb™ UVc Corona and Arcing Detection Cameras for rental. We also sell the DayCor® cameras! Please contact us for pricing. The DayCor® Cameras are 100% solar-blind!

**Innovation, Performance, Reliability, Excellence.**

Sincerely,  
Jan K. Eklund
